

To qualify for a free Fitness Program membership, all you have to do is complete 12 visits within the first three months and pay a \$2.00 fee per visit. (Members under age 18 need to complete six visits within the first three months and do not have to pay the fee.)

After completing the 12 visits during the first three months, your membership at the fitness center is free for the rest of the year. You don't have to pay the fee anymore. You may have to pay for classes or activities not included in your fitness center's membership. Keep in mind, before starting any new fitness program, you should always check with your doctor.

Members must sign an agreement form during their first visit to the fitness center. The agreement says members will follow the rules and regulations of the fitness center. Also, once you choose a fitness center you may not choose a different site for one year.
